Web development:

   ASP.NET MVC 4.0,Razor, SilverLight, RIA Services, HTML5, DHTML, CSS, Javascript, Ajax,
 - Jquery, Bootstrap, foundation.zurb, highcharts ,Google visualization API,WCF, XML/SOAP Web
   Services,SSO, IIS

Windows Development:

 - WPF, WinForms

Databases:

- Ms SQL/T-SQL, Ms Access, Oracle, MySql, ADO.Net Entity Framework, Linq to Sql

IDE, Components, Tools:

- Visual Studio 2012,Telerik, Expression Studio (Web, Blend)

Development methodologies, related tools:

- MSF Agile, Target process, SVN, Redmine, UML,  VSS, SharePoint

Others:

- Windows Server 2008, Active Directory, VPN, Virtual machines

Relevant experience:

BRAC-ICT
Senior Software Engineer

75 Mohakhali, Dhaka
From Feb 2010 to till now

Tools utilized:
ASP.net,MVC,C# .NET 4.5, SQL, XML, HTML5, CSS3, JavaScript, Jquery, BootStrap,
foundation.zurb, Entity Framework, SharePoint Server 2007(MOSS),MS Sqlserver 2008,IIS

Responsibilities:

- Develop new software and enhancement of existing software.
- Project planning, analysis and design.
- Coding and database designing.
- Software training.

Projects:

EDRMS (On progress) (Electronic document and record management system)
-CMS for procurement department. More than 1 million pdf file upload on procurement document
library.
Design on MOSS SharePoint 2007.

eRecruitment:

- Users now have the flexibility of working from any location (with an internet connection), Save
time with managing job boards, posting vacancies and handling applications. Manage screening
processes and sending response emails through our award-winning, web enabled recruitment
software .Using Asp.Net,Jquery and SqlServer2008 and highcharts. Address: careers.brac.net.

My contribution was: Project Lead, Architecture design and coding.

SMS Service:

- Develop and design SMSC gateway called "SMS Service". Every application in BRAC is a client of
"SMS Service" communicates their clients.Grouping and SMS bulk is also a essential part of this
project. This service also provide message short code for BRAC employee and provide PF, leave
balance etc.this is developed and design on C# Windows Service,webservice, SqlServer2008,
Silverlight(For message group).

My contribution was: Project Lead, Architecture design and coding.

iCRESS:

- iCRESS (Integrated Collaboration and Rapid Emergency Support Services) a very sophisticated and real-time application which designed to address comprehensive collaboration effort across various BRAC programs. iCRESS provides wide range of services to connect different end points of BRAC operations. This is the biggest project ever BRAC ICT took under its wing and delivers a lot promises for BRAC.  By using iCRESS, BRAC's different programs can receive updates, monitor and track, communicate, advise all real time which give BRAC unprecedented advantages over other organizations. Using Java, jquery, Mysql, SQL Server.

My contribution was: Create lots of HR Service for load MAP data. Database create and Synchronization with HRMS database and sms and mms service for the user.

eDine:

- eDine (Electronic Dining System) is designed to provide real-time cost saving dining experience for BRAC employees. This project was launched under PEMS' guidance and sponsor. eDine promised to deliver faster and convenient way of obtaining lunch tokens, schedule meal plans, financial transactions, improve employee wait time for lunch, easy and quicker access to dining, and comprehensive reporting features for relevant stakeholders.

My contribution was: User registration and mapping between cards no and user PIN no.

BRAC-ICT
Software Engineer

75 Mohakhali, Dhaka
From Feb 2010 to till now

Tools utilized:
ASP.net, MVC, C# .NET 3,5, SQL, XML, HTML,VSS,Terget process, CSS, JavaScript, Jquery, Bootstrap, foundation.zurb, Entity Framework, MS Sqlserver 2008,IIS

One of most important client is BIT school. Address is http://banyansmsc.banyan-technologies.com.

DIUD:

-DIUD is an official site of Darul Ihsan University. There are lots of feature like online student verification, Photo gallery, Student information setup etc on it. This site is design and develops on bootstrap, ASP.net, CSS3, HTML5 and sqlverver 2008
Address: http://diu.ac.bd

Consultant Management System:

-Consultant Management System (CMS), launched end of 2012, is created and maintained by Working Group of ICDP. The ConsultantMS is a formal process for registering experts/consultants in all sectors to become part of our team. Experts to work in projects in developing countries on short- and long-term assignments. This site can detect device and fully RWD (Responsive web design).This site is designed on CSS3 and HTML 5 and ASP.NET C SHARP, Banyan RAD and sqlserver 2008.

Online Report:

- Online Report is an online reporting tools for Asia foundation.
This site can detect device and fully RWD (Responsive web design).This site is designed on CSS3 and HTML 5 and ASP.NET C sharp, Banyan RAD and sqlserver 2008.

Open Source:

BPMT:

BPMT (Business Process Management Tool) is a business automation process that is designed to optimize the business operations and workflow management system.  BPMT reduces bottlenecks and increases productivity by saving time and lowering labor costs. In BRAC, some of our core

business processes like Leave Request, Transport Requisition Request, Travel Authorization Request, Service Request to Communication, and Change Management Process had already been implemented by using BPMT. This automation effort is going to help all BRAC employees from all quarters to submit their requests from anywhere and anytime.

My contribution was: Replace Process Maker dashboard with logi report and create various report for management.

Logi Report:

Logi report is a online reporting tools. Using Logi Report creates various reports for BRAC using process maker database.

## Professional qualification:

- DBA in Oracle 9i, course running (SQL part Complete and fundamental1 running) Institute: IBCS-PRIMAX, Dhanmondi.
- C# and Asp.Net Certificate Course. Institute: NIIT, Uttora & Brac Center.

## Honors & Awards

- Demonstrating best integrated performance at BRAC-ICT 2012

Language Skills:

- Strong command over the English language, in both oral and written forms.
- Can speak in Bengali as well as writing.

Extra Curricular Activity:

- Participated in Inter School Debate Competition.
- Played cricket at School & College Cricket Team.
- Amateur Pool and Billiard player at Dhaka Billiard Centre.

Personal Information:

Father's Name       : Md Sadrul Alam.
Mother's Name       : Kohinoor Begum.
Date of Birth       : 01 Sept 1984
Nationality         : Bangladeshi

Friendly, ambitious, dynamic, hard working, team player, fast learner.
